Train a group – from multiple departments and locations – in your own safe, virtual environment.

HCPro's top-quality education resources and training are up to date and cost effective. And we want to bring them to you and your teams.

From coding to billing & reimbursement, there are many areas of revenue and compliance that can be compromised in the healthcare environment. Keeping on top of the maze of regulations and mandates is crucial to protecting your bottom line and maintaining revenue integrity.

With our online learning opportunities, we can minimize time away from jobs and account for remote team members. We can give everyone in your organization the opportunity to learn with one another and ask questions unique to your collective needs.

There are many benefits to virtual, instructor-led training...

Virtual training boosts productivity by ensuring your employees are taught the same consistent information based on real rules established. By learning up-to-date information on coding, billing, compliance, and accreditation rules and regulations, we can save your organization potentially thousands of dollars in lost revenue.

Our courses are available in multiple formats, customized to scheduling and educational needs of our clients. By using leading edge digital education platforms, our online courses allow for flexible scheduling and can meet your staff where they are – even in challenging healthcare workspaces.
Rules-Based Learning

Our course materials – created by our team of experts – are based on recognized source authorities and teach students how to find and apply guidelines and rules. Your team will use the knowledge, resources, and strategies gained from the course long after the classes are over.

Custom-Designed Course Materials

We provide proprietary materials and exercises developed by instructors specifically for this immersive learning environment and customized for your organization's training needs. Our learning experience isn't just a proctor reading from a manual - you and your staff will enjoy a lively training experience certain to leave an impression.

Unmatched Knowledge

Instructors have a unique combination of real-world healthcare and adult education experience, presenting complex topics in an easy-to-understand style. As the pioneer in compliance and regulatory training, our educational skills are unmatched.

Earn Valuable CEs to Maintain Your Credentials

Training with us offers valuable continuing education units from major national and state organizations. You and your team members can get a year's worth of credits from just one training experience.

Our instructor-led training covers a variety of healthcare compliance topics and is completely customizable.

Coding

Master need-to-know skills for inpatient and outpatient coding, as well as professional coding and E/M coding.

Medicare

Get the ins and outs of coverage rules and Medicare regulations for hospitals, critical access hospitals, rural health clinics, and physician practices to maximize compliant revenue.

Clinical Documentation Improvement

Master the ins and outs of hot topics in CDI, including IPPS methodology, risk adjustment, outpatient CDI, and clinical validation. Provide your team ACDIS-endorsed best practices, tools, and strategies.

Long-Term Care

Understand the latest Medicare rules and regulations and ICD-10 coding issues that are applicable to long-term care facilities.

Accreditation

Acquire best practices for survey prep, training, and overall management for survey coordinators and accreditation and quality professionals.

Residency

Learn about ACGME requirements, best practices for survey readiness, preparing for the Next Accreditation System (NAS), the Clinical Learning Environment Review (CLER), and overall program support and management.

Physician Practice

Provide new and experienced physician leaders with the knowledge and skills to succeed in leadership. Deliver products and services to help run your practice, with advice and guidance on coding and reimbursement, office management, OSHA and HIPAA compliance, and staff training.

Home Health

Receive training on ICD-10 issues, OASIS documentation, PDGM, auditing your documentation, and ensuring desirable star ratings.

"The instructor was knowledgeable, patient, detail-oriented and willing to spend time one-on-one to answer any questions."

"The free flow of information was clear, simple and concise which made for great learning experience."

"Everything that was covered was vital to current issues and the ever-changing guidelines. It was well-worth the time and money!"
