

Ensure your team stays ahead of Medicare regulatory changes

PROPEL Medicare offers year-round Medicare monitoring and customized billing and compliance education to help healthcare leaders ensure staff are up to date on the latest regulatory changes, compliant with Medicare billing policies, and efficient in revenue cycle processes.

PROPEL Medicare's prime feature is its Medicare Watchdog service, a powerful monitoring solution that tracks all Medicare regulatory changes for you across a wide range of topics and summarizes those changes in a custom Watchdog Report.

Your team receives the report each month via email, then joins one of our Medicare instructors on an hour-long monthly call. The instructor uses that call to explain each update from the report, translate some of the more obtuse Medicare language into plain English, discuss how any changes will impact your organization, and guide you on how to implement necessary process changes to ensure compliance.

PROPEL Medicare also includes:

Ask-the-Expert Hours

Are you struggling to figure out why a claim was denied? Do you need clarification on how to properly bill for a challenging scenario? Use our email hotline to submit your toughest Medicare questions to our team of experts, and receive a response back within a few business days.

An Online Library of Revenue Cycle Tools and Resources

PROPEL Medicare includes teamwide access to Revenue Cycle Advisor, HCPro's invaluable regulatory and reimbursement news/education resource, for your entire revenue cycle department.

Continuing Education Opportunities

PROPEL Medicare offers opportunities to earn AHIMA and AAPC CEs through our *Revenue Integrity and Essential Skills* and *Case Management and Utilization Review Essential Skills* libraries.

PROPEL offers unprecedented access to HCPro's and ACDIS' ever-growing suite of training programs, tools, and trusted expertise.

One consistent message

All staff members have access to the training and resources within PROPEL, ensuring that everyone hears the same message about how to accurately apply evolving regulations, guidance, and industry best practices. Getting training from one vendor also eliminates conflicting messaging within and across departments.

Rules-based training

We base all of our training on source authority rules and regulations, not opinions. Materials include links and references to recognized authorities, so you know your team is getting compliant education.

100% virtual delivery

Staff can log on to our web-based platform and find all of their PROPEL training and resources no matter where they are located.

Unlimited access

Designed as a training program for teams to support compliance, all staff can have access to PROPEL education and resources. Easily add staff as your team grows without additional costs.

To speak with a representative about PROPEL, please call **615-724-7200** or email advisoryservices@hcpro.com

Bring the ACDIS standard of excellence to your team

PROPEL**CDI** is a 100% virtual training solution developed by ACDIS instructors that allows CDI leaders to provide consistent and compliant training to their team.

PROPEL**CDI** includes:

- Six custom webinars selected by your leadership on your top challenge areas
- Five all-member webinars designed to keep CDI teams up-to-date on the latest regulatory changes and coding guidance
- Teamwide access to the CDI Learning Assessment to identify areas where your staff could benefit from education
- Teamwide access to a library of ACDIS resources, including ACDIS Journal articles, book chapters, practice briefs, and more
- All of this and more is delivered on a user-friendly platform that keeps benefits centrally located and easy to access for staff

ACDIS's best-selling training can be added to your **PROPEL**CDI package.

ACDIS PRO

Give your whole team access to the online version of the ACDIS Pocket Guide.

ACDIS Boot Camps

Available as live or self-paced online classes—ACDIS has 10 training courses designed to move staff along the novice to expert continuum. Get all-access to the full training suite or select courses. Available on the same platform as your PROPEL**CDI** training!

The CDI Curated Webinar Library

On-demand access to monthly webinars on CDI and inpatient coding topics. Available on the same platform as your PROPEL**CDI** training!

Keep your coders up to date on the latest guidelines

PROPEL**Coding** is a training solution designed to keep your coding teams attuned to the latest code and guideline updates and earning continuing education credits. This ready-to-implement solution helps HIM and coding leaders ensure their teams receive trusted and consistent training that will advance compliance and accuracy.

PROPEL**Coding** includes:

Monthly webinars

Keep staff up to date on the latest coding guidance and code updates by attending monthly webinars with our coding instructors. Members receive quarterly *Coding Clinic* and *CPT Assistant* webinars, annual ICD-10-CM/PCS and CPT update webinars, and two custom webinars on topics of your choosing.

JustCoding Platinum

All staff have access to this go-to reference for coding articles, educational tools, resources/sample forms, and continuing education credits (CE). Earn up to 24 AAPC, 24 ACDIS/CCDS, and 48 AHIMA CEs per year.

JustCoding PRO

When questions arise during record review, coders can turn to JustCoding PRO for answers. This easy-to-search online resource details ICD-10 and E/M coding requirements for inpatient and outpatient settings. It also walks through diagnostic criteria and documentation requirements so that coders can accurately validate and code diagnoses.

HCPro's Coding Webinar Libraries

A collection of HCPro's inpatient, outpatient, and professional services coding webinars. Coders receive access to new webinars each month--all approved for CEs! Coding leaders can assign staff webinars and track their completions.

Ask-the-expert service

When managers or leaders struggle to figure out how to code a challenging case or how to reconcile a billing issue, our experts can help. Send your questions via email to our team of experts, and we will respond with answers backed up with links to applicable guidance and source authorities.
